

Introducing CREW TUBE

WE WANT YOU TO FEEL PREPARED AND CONFIDENT BEFORE YOU EVEN ARRIVE FOR YOUR FIRST DAY AT SEA. THAT'S WHY WE'VE CREATED CREW TUBE

Crew Tube is a new free mobile app which is designed to help you feel at home on board your ship. It tells you what to expect on your first day at work and how to stay safe while on board.

It also features videos and guides to remind you of what's important to understand and remember while you're working at sea. It's free to use and you don't need any internet access, just download when you have Wi-Fi.

HOW TO DOWNLOAD

It's easy to get Crew Tube on your personal device.

Android

- Go to the Play Store
- Search Crew Tube
- Download for free

iOS

- Go to www.carnival.com/crewtube
- Download for free

We're still developing iOS compatibility so the app will say not trusted. Don't worry, it is! On your device go to Settings > General > Device and 'trust' the Carnival certificate.

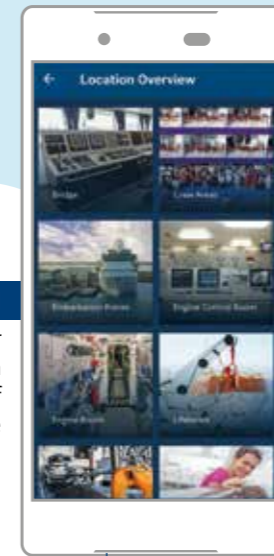

SHIP SAFETY

This is for everyone to help understand how important your health, the environment, safety and security is to Carnival UK, and the important role you play in maintaining this.

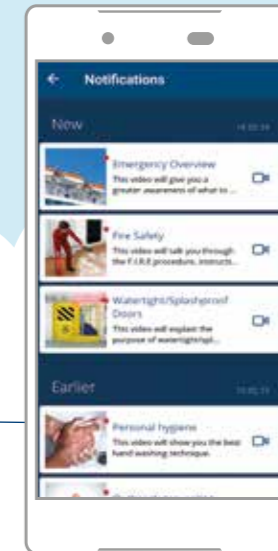

SHIP FAMILIARISATION

Colleagues who've never been on a ship before can learn more about each of the areas they'll find once they're on board.

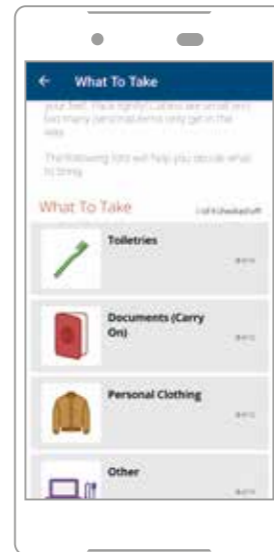

CREW UPDATES

We'll update Crew Tube with new features and information. This notification section will make sure you always know when there's something new to see.

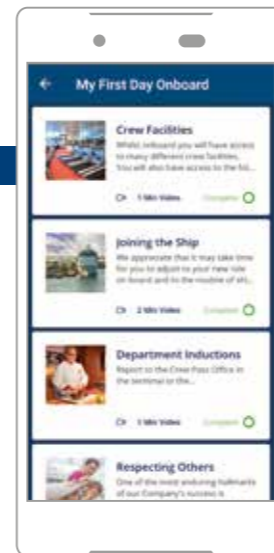

PACKING GUIDE

A packing guide helps people understand what's essential to bring and what can be left at home.

FIRST DAY ON BOARD

New colleagues can prepare themselves for what their first day on board will be like.

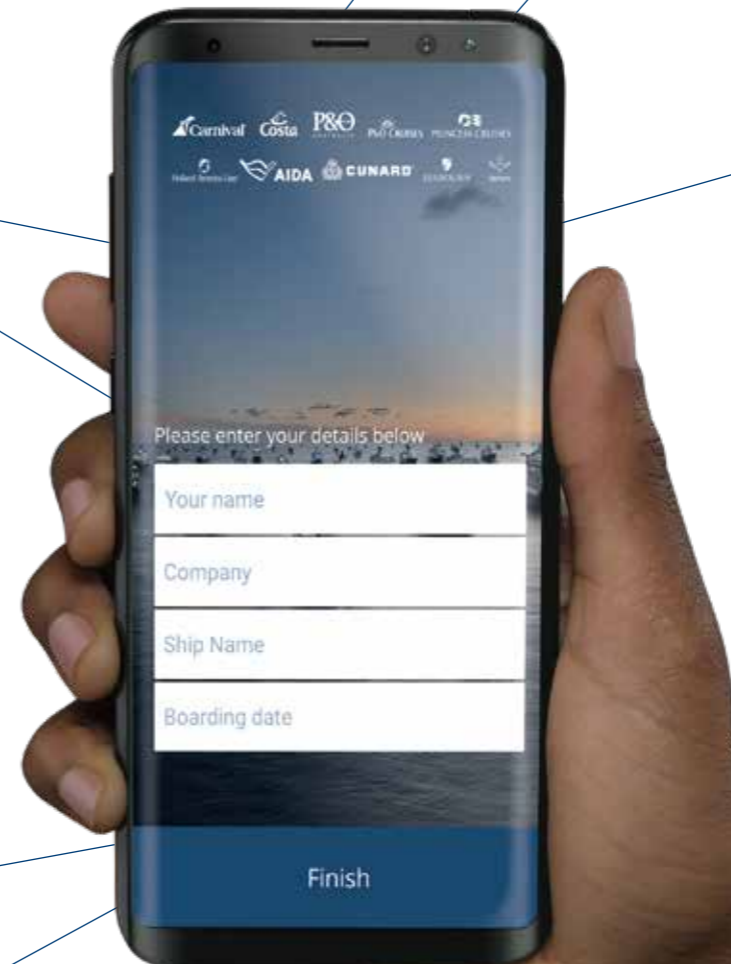

HOME PAGE

A simple home page makes it easy to navigate around Crew Tube

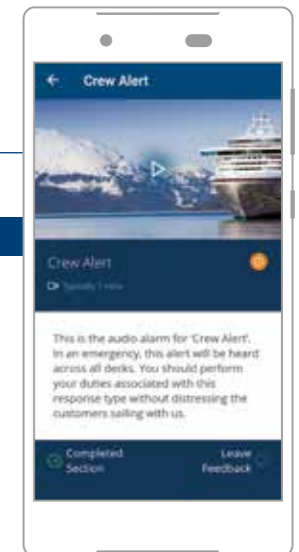

GETTING STARTED

Enter your details to personalise Crew Tube and to start your joining date countdown

VIDEOS

Learn and find out more through short videos and flash cards. These will support you in understanding life on board and your responsibilities while you're at sea.

QUIZ

Be a quiz master! When you've completed each section of Crew Tube, test your knowledge to see what you can remember.
